Journal of Loss Prevention in the process industries

The international journal of chemical and process plant safety

Index to Volume 8 (1995)

Number 1 (January) pp 1–48
Number 2 (March) pp 49–134
Number 3 (May) pp 135–196
Number 4 (July) pp 197–252
Number 5 (September) pp 253–312
Number 6 (November) pp 313–364

Article index

Number 1

Axial void fraction distribution effects on level swell during emergency pressure relief
B. Boesmans and J. Berghmans 3
Warehouse fires in the UK involving solid materials
C. M. Bidgood and P. F. Nolan 11
Discussions on the use of fine water sprays or mists for fire suppression
A. Jones and P. F. Nolan 17
Experimental study on the intensity and probability of vapour explosions
T. Umetsu, H. Ohtani and Y. Uehara 23
Accidents during marine transport of dangerous goods. Distribution of fatalities
H. Rømer, P. Haastrup and H. J. Styhr Petersen 29
Risk analysis for the road transportation of hazardous chemicals in Singapore—a methodology
C. B. Goh, C. B. Ching and R. Tan 35
Process plant safety and the ISO STEP standard
A. M. Newton 41

Book review 47

Calendar 48

Number 2

Editorial 51
The influence of water sprays on gas explosions. Part 1: water-spray-generated turbulence
K. van Wingerden and B. Wilkins 53
The influence of water sprays on gas explosions. Part 2: mitigation
K. van Wingerden, B. Wilkins, J. Bakken and G. Pedersen 61
Recent developments in modelling mitigation of accidental releases of hazardous gases
V. M. Fthenakis and D. N. Blewitt 71
An analysis of the database coverage of industrial accidents involving hazardous materials in Europe
P. Haastrup and H. Rømer 79
Historical analysis of accidents in chemical plants and in the transportation of hazardous materials
J. A. Vilchez, S. Sevilla, H. Montiel and J. Casal 87
The porous-wall ceramic membrane reactor: an inherently safer contacting device for gas-phase oxidation of hydrocarbons
J. Coronas, M. Menéndez and J. Santamaria 97
Effect of heating a semi-transparent medium by radiant energy on ignition characteristics in thermal explosion theory. *S. A. El-Sayed* 103
Flashing water flow through a safety valve
L. Bolle, P. Downar-Zapolski, J. Franco and J. M. Seynhaeve 111
Toxic combustion products of three pesticides
R. Kakko, V. Christiansen, E. Mikkola, R. Kallonen, L. Smith-Hansen and K. Haahr-Jørgensen 127

Book reviews 133

Number 3

Heat transfer mechanisms and boilover in burning oil-water systems
B. Broeckmann and H.-G. Schecker 137
Rupture of a gas-pressurized cylindrical vessel: the velocity of a detached end-cap
M. R. Baum 149
Some aspects of fire and explosion hazards of large LPG storage vessels
Yu. N. Shebeko, I. M. Smolin, A. Ya. Korolchenko, A. P. Shevchuk, A. N. Borodkin, V. L. Malkin, O. A. Simonov, L. V. Gurinovich, S. A. Popov, V. A. Kolosov and E. V. Smirnov 163
The design of disposal systems for runaway chemical reactor relief
R. D. McIntosh, P. F. Nolan, R. L. Rogers and D. Lindsay 169
Small-scale evaluation of dump tank sizing methods
R. D. McIntosh, P. F. Nolan, R. L. Rogers and D. Lindsay 185

Number 4

Comparison of probit expressions for the prediction of lethality due to toxic exposure
S. Schubach 197
Modelling and optimization of semi-batch and continuous nitration of chlorobenzene from safety and technical viewpoints
J. Wiss, C. Fleury and V. Fuchs 205
Flammability limits and burning velocities of ammonia/nitric oxide mixtures
M. D. Checkel, D. S.-K. Ting and W. K. Bushe 215
Experimental study on the premonitory phenomena of boilover in liquid pool fires supported on water
W. C. Fan, J. S. Hua and G. X. Liao 221
Specific features of kinetics evaluation in calorimetric studies of runaway reactions
A. Kossoy and E. Koludarova 229
Ignition and transition conditions for inflammation and extinction for a first-order heterogeneous reaction
S. A. El-Sayed 237
A numerical procedure for assessing risks from road transport of dangerous substances
G. Spadoni, P. Leonelli, P. Verlicchi and R. Fiore 245

Number 5

An amended method for calculating omega for a homogeneous equilibrium model of predicting discharge rates
J. L. Woodward 253
A review of ASTM CHETAH 7.0 hazard evaluation criteria

E. S. Shanley and G. A. Melhem 261
Measurement of the explosive performance of high explosives
N. F. Scilly 265
Scale effects with fire exposure of pressure-liquefied gas tanks
A. M. Birk 275
Fires, explosions and related incidents at work in 1992–1993
K. A. Owens and J. A. Hazeldean 291
Risk perception and attitudes to safety by personnel in the offshore oil and gas industry: a review
K. Mearns and R. Flin 299
Employee representation and occupational health and safety in Britain: 1974–1994
D. Walters 307

Number 6

Employee representation and occupational health and safety: the significance of Europe
D. Walters 313
Safety devices for gas welding, cutting and allied processes
D. Lietze 319
Limit of safety against flame transmission for sintered metal flame arrester elements in the case of flashback in fuel gas/oxygen mixtures
D. Lietze 325
Revised emergency vacuum relief device sizing for atmospheric distillation systems
P. N. Lodal, J. L. Mahannes, J. I. Calvert and J. M. Keel 331
Model off-site emergency plan. Case study: toxic gas release from a fertilizer unit
B. V. Ramabrahmam and M. M. Mallikarjunan 343
Twenty-five years of HAZOPs
C. D. Swann and M. L. Preston 349
Causative factors for vapour cloud explosions determined from past-accident analysis
A. Koshy, M. M. Mallikarjunan and K. V. Raghavan 355
